

Pet Hospital of Peñasquitos

Full Service, Compassionate, Progressive, Veterinary Care for all your Pets

We treat your pets as our own

Anesthetic Consent

Here at The Pet Hospital of Peñasquitos we take all necessary precautions to ensure that your pet's procedure is as safe as possible. These can include placing intravenous (IV) catheters, testing pre-operative blood, and/or administering IV fluids during procedure. We monitor using electrocardiogram, apnea monitor, pulse oximeter and have manual monitoring by a technician. With all these precautions there is still a possibility of health complications and in worst case, death.

I will allow the doctor and staff of the Pet Hospital of Peñasquitos to utilize emergency techniques if necessary and agree that I will be responsible for the charges that accrue for services provided.

I acknowledge and accept the risks involved with anesthesia and release the doctors and staff of the Pet Hospital of Peñasquitos of responsibility for complications resulting from anesthetic exposure.
